

Shropshire Astronomical Society

For Sale

The Society does not generally sell equipment. However occasionally we do have special offers to members such as Moon Filters, so watch this space! We have in the past been asked to help with the dispersal of deceased members telescopes and equipment which we will sympathetically undertake. However we will be happy to include equipment for sale by members of the society. Just forward a picture and the necessary information including a price and contact details. Please contact the vendor directly.

11/5/18

Society member George McGuinness has the following items for sale:

1/2/18

David Woodward, chairman of the society for over 20 years, has pened his thoughts, experiences and history of the society, over that period in a book which is well worth a read. At £5 it is available at society meetings and other SAS events throughout the county. If you have difficulty then please contact the chairman.
