

## YOUTH CLUBS

The society is often requested for assistance by national youth groups such as the Brownies and Scouts.

We have a range of activities that will help individuals gain their merit badges. We have the experience to meet all demands including the DOE awards. Presenters are STEM Ambassadors with enhanced CRBs and are experienced in working with young people. Click on your badge for more information. All our outreach events are covered by public liability insurance. We also follow the FAS guidelines on child protection.
